

AUTOGAS IN ACTION: EARTHWORKS, INC.

"We have been thrilled with our lawn equipment fleet's conversion to propane," said Chris Lee, President of EarthWorks, Inc., a full-service commercial landscaping company based in Dallas. "The biggest benefit is not the less expensive fuel, but that our maintenance and repair costs have decreased dramatically. Propane is so much cleaner and so much easier on our machines that I wouldn't believe it if I hadn't seen it myself."

SAVE 30-35%

ON MAINTENANCE COSTS PER YEAR

PROPANE FLEET BREAKDOWN

20 36" mowers from
Toro & Scag

24 52" mowers from
Toro, Exmark & Scag
